# APPLICATION

Greet a complete home solution product range with us. One of the most popular practices for modern-day homes is to extend the flooring of the Living room to the kitchen.

A well designed Glossy finish tiles that will perfectly complement your trendy space.

# FEATURE

The parameter used for slip resistance is called the Coefficient of Friction (COF). The higher the COF, the better the slip resistance of the tiles. Unglazed tiles, mosaic tiles (with many grout joints) and rough surfaced tiles are less slippery when compared with smooth and HIGH GLOSSY glazed tiles.
